Wally/Dean,

I certainly wanted to point out that it was very much noticed the extend in which Commercial Metal Building went in order to close out the punch list Items at Westside. It was apparent that Wally worked persistently to please the client. I noticed how Wally was always ready to closeout items as soon as the material arrived onsite, when material was required. Commercial Metal Building's effort is what accomplished the closing of all these small items at Westside.

Sincerely,

Pedro Arana |
